Thank you for your interest in the first annual ANV event by reenactors for reenactors. This is a **NON SPECTATOR** event in a rural secluded area. EMS and security will be available for our safety. Due to the remoteness and being a first attempt there are some items we will ask, but bear in mind we will improve upon logistics with each annual event.

The Battles

Robert E Lee had just been placed in command. He changed the name of his command from the Army of the Potomac to the Army of Northern Virginia. He would be trying to push General George McClellan's Army of the Potomac away from Richmond.

There were a number of battles during the Seven Days Battles but we will be focus on parts of two of them.

On Saturday we will be re-enacting a part of the Gaines Mill battle, fought on June 27, 1862. We will reenact A P Hill and Stonewall Jackson attacks against General George Morell's division of the V Corps. After repeated Confederate attacks, they will finally breakthrough the Federal line and cause them to retreat.

On Sunday we will be doing part of the battle of Frayers's Farm or Glendale. This was the battle that could have won the war for the Confederates, but a lack of coordination proved fatal for that to happen. This battle would place parts of Longstreet's division and AP Hill division against General George McCall division and reinforcements from the II Corps and the VI Corps. It was said that some of the most savage fighting of the war took place there. The battle was a back and forth affair that ended in a stalemate.

Critical Items for the event

Firepits will be on top of the ground and we need to leave the site as we found it. Each company is responsible for this task and for returning firewood to the designated area.**
